It went by so fast  
And now I wanna go back  
And that's why I'm living in the past, I,  
I used to be cool  
I used to be a fool  
Too cool for rules now  
Too cool for school  
I used to be pretty  
Pretty like a girl  
I was the prettiest little girl  
In the whole fucking world!  
So look at yourself  
Enjoy your health  
And everybody else  
Yeah everybody else  
And really enjoy yourself now!  
Cause I used to be tough  
I used to play it rough  
Before the storm took a skit [?]  
And took my rips  
Until I had had enough  
I used to be hot  
I used to be a little studge [?]  
And like it or not  
I got what I want  
And I like what I got you  
So look at yourself  
Enjoy your health  
Say what you mean  
Be what you be  
And really enjoy yourself now!  
I used to be pretty  
Well I used to be pretty  
I was the prettiest little shity in the whole New York city  
So look at yourself  
Enjoy your health  
Say what you mean  
Be what you gotta be  
And really enjoy yourself now!
