In me the scientist,
Always stuck on, always trying this.
I try to live on science alone.
Analysis and freaky sensitivity,
Weve gotta live on science alone.

Yeah, uh, I am a scientist.
Yeah, uh, I am a scientist.
Yeah, uh, I am a scientist.
Weve gotta live on science alone.

Religiously, I'm speaking on the science, 'cause
Weve gotta live on science alone.
Ill tell you what, Mathimatically I'm having it.
I wanna live on science alone.

Yeah, uh, I am a scientist.
Yeah, uh, I am a scientist.
Yeah, uh, I am a scientist.
Weve gotta live on science alone.

In me the scientist,
Always stuck on, always trying this.
I try to live on science alone.
Analysis and freaky sensitivity,
Weve gotta live on science alone.

Yeah, uh, I am a scientist.
Yeah, uh, I am a scientist.
Yeah, uh, I am a scientist.
Cause I could live on sceience alone.
Weve gotta live on science alone.

Yeah, uh, I am a scientist.
