Hey, I've been thinkin'
I've been thinkin' about nothin', yeah
Now I've been thinkin' about nothin' to do and nothin'
but thinkin'
And oh yeah, I know what it is to be there

Now people there ain't nothin' here but people
Dig it, yeah
Now if people got problems and they got problems with
people, oh yeah
I know what it is to be there

You gotta smoke it
(Smoke it)
Just as long as you can smoke it, yeah
(Smoke it, yeah)
If people got problems and people got problems with
people
I know what it is to be there

Uninsured car payment amortization
Local collection at its latest litigation
I should of stayed in college for about another 100
years
(Leave me alone)
But I never wanted it to be there

Alimony palimony don't get too drunk in Vegas
At least not with the waitress from any those places
People got more baggage than JFK, yeah
And I'm talkin' about the airport man

You gotta smoke it
(Smoke it)
Just as long as you can smoke it, yeah
(Smoke it, yeah)
We got child-proof containers we got use only as
directed
Inspected by, number 9, it seems like he checked it

Alright, here we go, everybody together, everybody
together now

So let's get a big round of applause, big round of
applause
To brothers and sisters, brother's mothers, sister's
other mothers
Other brother's sister's mothers anyone, anyone who's
here, yeah
Let's have a big round of applause anyone who can do
it
Yeah yeah

Smoke it
(Smoke it)
Just as long as you can smoke it, yeah
(Smoke it, yeah)
If people got problems people got problems with
people
I know what it is to be there

Filed for an extension on my tax motion
Paid off our house and then fell into the ocean
I'm growing up quicker and handlin' my liquor and
yeah
You know what it is to be there, yeah

I registered to vote so I could abstain my exemption
Ah, man I thought laundry was the fifth dimension
See that's why I never voted in the Presidential Election
'Cause women are clearly more qualified to select him

Smoke it
(Smoke it)
Just as long as you can smoke it, yeah
(Smoke it, yeah)
So if your gonna be a dog then at least be a good dog
Come on now and sit, beg, stay

I got to smoke it
(Smoke it)
Just as long as you can smoke it, yeah
(Smoke it, yeah)
So now these people got problems and they got
problems with people
Oh yeah, I know what it is to be there
Smoke it
