Is how I describe you  
Your honest  
You make me feel like I can trust you  
Take advantage of my space and time  
You're so romantic  
You know how to make a man feel fine

You took me swimming in the ocean  
Had me flying cross the coast and  
You always keep me focused (yeah hi yeah)  
You told me, you love me  
And in my heart I know you mean it  
And no one can come between us (yeah hi yeah)

All of the things that you said to me  
And all of the things that you did for me  
All of these things just let me know you care  
All of the things that you got for me  
All of the things that you stop for me  
All of these things just let me know you care

You're so special  
You're the type of girl that is hard to find  
And you're so faithful  
I'm proud to say that you're all mine  
Now that were together  
I know the real meaning of love  
And when I close my eyes  
I still know is you just by your touch

You took me swimming in the ocean  
Had me flying cross the coast and  
You always keep me focused (yeah hi yeah)  
You told me, you love me  
And in my heart I know you mean it

And no one can come between us (yeah hi yeah)

All of the things that you said to me  
And all of the things that you did for me  
All of these things just let me know you care  
All of the things that you got for me

and all of the things that you stop for me  
All of these things just let me know you care

So gone  
Baby we going to shine like crome  
I know you hate being alone  
So I'm going to take you far from home  
And girl  
I know you wanna try new things  
Like a photo in a magazine  
Of me and you together  
You gotta trust me

All of the things that you said to me  
And all of the things that you did for me  
All of these things just let me know you care  
And all of the things that you got for me  
All of the things that you stop for me  
All of these things just let me know you care

And you look so good  
Yes you do  
And it feel's so good  
that somebody out there loves me to  
And if anybody out there  
Has been in love  
Then it's easier to understand  
When I say that she is the only one I'm thinking of
