I took her for a ride on my Indian Chief
She loved black leather
She was into grease (eww)
She'd hug me real tight
When I'd lay 'er back and let 'er roar

At a hundred and ten
All she ever wants is more

I took her out to (?Steppin'Lord?) a couple of times
She could move, she could groove, she could turn on a
Time
We never sat down and we danced 'til my feet were
sore
She's got a body built to boogie and all she ever wants
Is more

She's a hot blooded woman
Pepper and cumin
She wants a machine and I'm only human
I have to hide out just to get some sleep
I might keep up if there were three of me (panting)

After this much fun
I could die young
But I ain't gonna be bored
The way I love her
All she ever wants is more

She's a tiger with a taste for an all-nighter
Gotta hold on tight like a bull rider
She throws me on the couch then we wind up on the
floor
(A real cowboy)
I'm tryin' to catch my breath
And all she ever wants is more

She's a hot blooded woman

Pepper and cumin
She wants a machine and I'm only human

I have to hide out just to get some sleep
I might keep up if there were three of me

After this much fun
I could die young
But I ain't gonna be bored
The way I love her
All she ever wants is more
Every time I love her
All she ever wants is more

(Instrumental)

(All she ever wants is more)

(She wants more?)

She's a tiger with a taste for an all-nighter
Gotta hold on tight like a bull rider
She throws me on the couch then we wind up on the
floor
(What a man)
I'm tryin' to catch my breath
And all she ever wants is more

She's a hot blooded woman
Pepper and cumin
She wants a machine and I'm only human
I have to hide out just to get some sleep
I might keep up if there were three of me (panting)

After this much fun
I could die young
But I ain't gonna be bored
The way I love her
All she ever wants is more
Every time I love her
All she ever wants is more
