With Helen Terry

I hear that thunder
It's a wonder
But I don't mind the storm
And even lightning
Ain't so fright'ning
'Cause you keep me so warm

Let me tell ya
You are one sunny day
You're like a breath of fresh air
You just blow clouds away
Like you blow my mind

I pray you're gonna stay
And shine on me
My sunny day, hey, hey

Well, I keep findin'
That silver linin'
Even when sky's are gray

You're the reason
(You're the reason)
Every season
It's like the first of May, hey

You are one sunny day
You're like a breath of fresh air
You just blow clouds away
Like you blow my mind

I pray you're gonna stay
And shine on me
My sunny day, hey, hey

You are one sunny day
You're like a breath of fresh air
You just blow clouds away
Like you blow my mind

I pray you're gonna stay
And shine on me
My sunny day, hey, hey

You are my sunny day
I don't mind any kind of weather
Just as long as we're together

You're the reason
Every season
It's like the first, first of May

You are one sunny day
You're like a breath of fresh air
You just blow clouds away
Like you blow, blow my mind

I pray you're gonna stay
And shine on me
My sunny day, hey, hey

You are one sunny day
You're like a breath of fresh air
You just blow clouds away
Like the way you blow my mind

I pray you're gonna stay
And shine on me
My sunny day, hey, hey
