The sun just went behind the clouds  
There's darkness all around me now  
For I've just destroyed the world, I'm living in

I broke her heart so many times  
And now at last I've broken mine  
I've just destroyed the world, I'm living in

What made me think that I could go on hurting her  
I should have known there had have to be an end

But fools in love, I thought by fate  
We never learn till it's too late  
And I've just destroyed the world, I'm living in

What made me think that I could go on hurting her  
I should have known there'd have to be an end

But fools in love, I thought by fate  
We never learn till it's too late  
And I've just destroyed the world, I'm living in  
And I've just destroyed the world, I'm living in
