He Can't Love You Like I Do

I called you on the phone to say hello
You tell me that you're doing fine
And that you found somebody new
He can't love you like I do

I know inside your heart you still care
No matter what you say or do
You say you need more from a man
More than I been givin to you

So you think you found someone new
Who'll love you better than I do
Well, have I got news for you
He can't love you like I do

So tonight you'll meet him down town
You'll dance just like we use to do
He'll tell you you're his everything
But the only face you'll see will be mine

He'll take you home and make love to you
And whisper sweet lovins in your ears
Oh, but when he kisses you
It will be me sitting there
