Another day
Like yesterday
Another day
Like yesterday

Sunday morning,
But I'm thinking about Saturday night, ha
Had fun with the woman I met
She made me feel so nice
We met at 8 o'clock
She just left an hour ago, oh
She made my day worthwhile
I'll be going back for more

She knew what I wanted
She didn't waste no time
Beautiful thoughts I have of her
Are running through my mind
(liii)

I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
Another day

Another day
Like yesterday
Another day
Like yesterday

She must know magic
Mystified my mind
You have feel it to believe it
A Houdini a thousand times
She had me floating into space
With her mystifying way
I thought I saw Heaven at the end of a rainbow
All in one single day

She knew what I wanted

She didn't waste no time
Beautiful thoughts I have of her
Are running through my mind
(liii)

I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
Another day

Another day
Like yesterday
Another day
Like yesterday

(Interlude)

(liii)

I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
I want another day
(Another day like yesterday, another dayyy)
