I'll remember you with love

Some people say  
It's better to play it safe  
Cause you can't get hurt that way  
But my philosophy  
Is what's meant to be will be  
So I take what comes naturally, oohhh

No tears  
No time for regrets  
Just glad we were together, oh  
I know  
I'll never forget  
All that we had girl  
Looking back would be a pleasure

I'll remember you  
( remember you )  
Remember you with love  
( love )  
Yes I'll remember you  
( remember you )  
Remember you with love  
( love )  
I'll remember  
( I'll remember you )

That first caress  
Feeling of warmth and tenderness  
Such a feeling I can't express  
And like I said before  
How could I ask for anything more  
What you gave me  
Was more than I bargained for  
Oohhh

No tears  
No time for regrets  
Just glad we were together, baby  
I know

I'll never forget  
All that we had girl  
Looking back would be a pleasure

I'll remember you  
( remember you )  
Remember you with love  
( love )  
Ooohhh  
Yes I'll remember you  
( remember you )  
Remember you with love  
( love )

( Interlude )

Oooohhh  
Ohh

No tears  
No time for regrets  
Just glad we were together, baby  
( I know )  
I know  
I'll never forget  
All that we had girl  
Looking back would be a pleasure  
Oooohhh

I'll remember you  
Remember you with love  
( Oooohhh )  
( I'll remember you )  
I'll remember you  
Remember you with love  
Oooohhh  
I'll remember  
No tears  
No time for regrets  
Remember you with love  
I'll remember  
( I'll remember you )
