We smiled and that's how it all started,
And you came right in time
When I needed someone
And we said hello,
Suddenly my heart was beating fast.

CHORUS:

So it's you I've been waiting for so long,
So it's you, where were you all along?
Very special moments, these will always be with me,
We are here, you and I, we belong.

We touched and we felt more beautiful,
And two hands reachin' out
Filled with so much longing;
It felt good inside,
There is no denying I'm in love.

CHORUS:

So it's you I've been waiting for so long,
So it's you, where were you all along?
Very special moments, these will always be with me,
We are here, you and I, we belong

So it's you I've been waiting for so long,
So it's you, where were you all along?
Very special moments, these will always be with me,
We are here, you and I, we belong

We are here, you and I, we belong
