If there are any words  
That we haven't said  
Let us say them

I know all too well  
How people's lies  
Betray them

More than ever  
I'll wait for you there  
More than ever  
I will need you to care

And I'll never need  
More than a prayer  
To be near you  
To be near you

Time is a baby, child  
Found in the rain  
Born of fever

She'll bring you pretty songs  
Laced through with lies  
And don't you believe her

More than ever  
I'll wait for you there  
More than ever  
I will need you to care

And I'll never need  
More than a prayer  
To be near you  
To be near you  
To be near you
