"Alone"

Visit "[Alone](#)" on MotoLyrics.com

Fall into your shadow
Roll another day
Free my mind can travel
Dream this world away

Now I can't let go
Only follow
All that you can show
Leaves me hollow

And I find myself alone
With you arms around me
And I find myself alone
And you think you know me now

All I feel is frozen
Cold I can't explain
Waiting for an answer
Breathe your world again

Now I can't let go
Only follow
All that you can show
Leaves me hollow

And I find myself alone
With you arms around me
And I find myself alone
And you think you know me
And I find myself alone
With you arms around me
And I find myself alone
And you think you know me now
