By myself but not alone  
The lights are on but no-one's home  
Not alone but by myself  
(unspoken) Let's talk about my mental health  
Not a drugged up fantasy  
A paranoid reality  
Found it hard to live with me

Hear the voices in my head (in my head)  
Hear the voices in my head

Conversations in my mind  
My other selves are so unkind  
They say the things I'm scared to say  
With silent shouting in my brain  
They're trying to keep me going sane  
Then the whispers in my ear

Hear the voices in my head (in my head)  
Hear the voices in my head  
Hear the voices in my head (in my head)  
Hear the voices in my head
