You see inside my heart  
And fill me with your oil of love  
You know my every part  
And what i need You give enough

I would not have known a love so real  
Without the Lamb of God who died for me

There's no love without You  
No one could love me more  
There's no love without You  
Cause You are love

You guide me to that place  
And give me more than i deserve  
You help me run the race  
You are the only God i serve

I tried it on my own  
Only to fall on my face

I could not have found myself so free  
Without the love of You, it runs so deep
