"Starting To Live"

Visit "[Starting To Live](#)" on MotoLyrics.com

Shooting stars won't bring us down tonight
We're racing through these streets of paradise
Wake up, Wake up
Open your eyes
Revolution's ripping up the skies
You feel you're starting to live
You feel your losing control
You only get what you give
So let the chemicals flow
The chemicals flow
Come on take a rollercoaster ride
There's no one in the universe tonight
Wake up, Wake up, you've arrived
We're lighting up the streets of paradise
You feel you're starting to live
You feel your losing control
You only get what you give
So let the chemicals flow
Oh, you feel like you're in Overdrive
Oh, your shooting stars pass you by
You feel you're starting to live
Oh you feel like you're in overdrive
Oh shooting stars pass you by
Yeah you feel you're starting to live
Yeah you feel you're losing control
You only get what you give
So let the chemicals flow
Yeah your losing control
A chemical flow
It's just a chemical flow
It's just a chemical flow
It's just a chemical
