You're the sun, you're the sky  
Wonder, wonder, wonder  
Do I know you  
Take my hand, take my soul  
Take me, take me, take me  
Do I know you  
Do I know you  
I dreamed I saw the waterfall  
And the water was your hair  
So I dipped my cup in golden light  
And tried to drink  
But there was nothing there  
All my life I'm on my knees  
Praying, begging, pretty please

Do I know you  
In all that time I ain't heard  
One word, one word, one word  
Do I know you  
Do I know you  
I dreamed you came from outer space  
From somewhere in the stars  
So I bought myself a telescope just to see your face  
But all I saw was Mars
