

## Realtime "On Friday"

I live in the real world, I go to work every day  
I'm not what I feel world [sic], I'm only what I get paid  
I take a vacation two weeks a year  
Where I spend seven paychecks on a tan and a beer  
ON FRIDAY I come alive  
ON FRIDAY I will survive  
ON FRIDAY I feel alright  
ON FRIDAY and Friday night

Got a dollar in my pocket, the kind of money that burns  
Wild! -- like a rocket, funny how it's earned  
Gonna buy myself a smile and dance on feet of clay  
I need to find a lover but I'll settle for a lay  
(Music by Delon Dotson; lyrics by Delon Dotson &  
Donald Summers; Â©1992 Sheer  
Records)
