Growin up in OK  
People call us plain  
Cuz we believe in god and love  
And old fashioned things  
We still draw a line  
Between wrong and right  
And when woman takes a husband  
It's for life

We met on the road from Tulsa  
Travelers in the night  
Well I knew we belonged together  
It just felt so right  
There's somethin bout this gal  
You oughta know  
She's gonna love you til it snows in Mexico

I'm gonna love ya  
Til it snows in Mexico  
Or til the Rio Grande  
Freezes over  
Cuz darlin when he made our love  
He threw away the mold  
And I'm gonna love you  
Til it snows in Mexico

If you should ever leave me  
Heaven forbid  
But you don't have to worry none  
About me kid  
You know exactly where I'll go  
I'll be waitin for the snow in Mexico

I'm gonna love you....
