Who  
Oh whos gonna love you like I do  
Who  
And who you gonna find to do the things that I do  
Before you say goodbye  
Better think about it one more time

Tell me who  
Who ever held you tighter  
Who  
Who you gonna find that can take you any higher  
Before you put me down  
Better stop and look around

And tell me who  
Who who who who  
You just might just find a match  
That can kindle your desires  
But what could is just one candle  
When what you need is fire

So tell me who  
Who who who who

Before I let you go  
One thing Ive got to know  
Tell me who  
Who gonna love you like I do  
Who who who  
Who you're gonna find that can do the things that I do  
Who who who ..
