"Why Not Tonight"

Well pardon me
But you've had my attention
Ever since you strolled into the room
Believe me that it's not my intention
If I appear to come on to smooth

It's not like me to make such advances
But this time baby I could not resist
So if you're up for
Takin a chance on love
I can't see a better time than this!

So baby why not tonight
This could be the start
Of somethin right
We could take it easy
We could take it slow
We could take it anywhere
That you'd like to go
So baby why not tonight
The stars are out
And I'm sure they'll agree
It's a perfect night for
Fallin' in love
So why not fall in love with me?

Maybe we could go out for some dinner
And later on now we could do the town
You know I'd consider myself a winner
Just to have a boy like you around
Then if you're up for doin some dancin
I know a place they dance until the dawn
You know anything you'd like
It'd be alright
So why not take a chance and come along

So baby why not tonight?....
