(dickey lee, kerry chater)

Ive seen you smile more than I thought you would
And I smiled back a little more than I should
And lately at night while he's sound asleep
Im thinking things that I shouldn't think

Chorus:

Youre the first time Ive thought about leaving
And I really don't know what I'll do
Youre the first time Ive thought about leaving him
Ive never done known someone like you

Sometimes I wait when I really should go
Lord only knows what I do that for
When I get home and he holds me close
I try not to think what Im thinking most

Repeat chorus

Ive never known someone like you
