She can concentrate on workin'  
Until her work is done  
She can hold a conversation  
As well as anyone  
She'll fool you with sincerity  
And if you didn't know her well  
You would never see it  
You could never tell

Chorus  
She's just lookin' for him  
She's only rememberin'  
She might look like she's ready  
To fall in love again  
But she's just lookin' for him

She keeps one eye on the road  
And one on the other lane  
Lookin' for his car  
His memories replayed  
She searched other faces  
Tryin' to find that spark  
But no one new can reach her  
Or fill her hollow heart

Chorus

Oh you better keep you distance  
Don't let her reel you in  
She's not quite herself now  
How could she been when

Chorus
