You can tell everyone love is over and done  
You can pack all your things and go  
You can lie to yourself and say that there's nothing left  
But there's something that i'd like you to know

\*Chorus\*

Its never really over  
Even though you say we're through  
You may be over me but cant you see  
Its not over if i'm not over you

\*Chorus\*

There's not much i can do if its over for you  
I'll just wish you the best when you leave  
But you played such a part in my life and in my heart  
You'll always be a part of me

\*Chorus\*

Its never really over  
Even though you say we're through  
You may be over me but cant you see  
Its not over if i'm not over you

\*Chorus\*

You may be over me but can't you see  
Its not over if i'm not over you
