It's all around you now but you don't know it
It's tugging at your heart but you don't show it
It's just a matter of time
It's gonna hit you right between the eyes

You wake up in the middle of the night
I'll be the only thing on your mind
Won't be able to shake it loose
When love gets a hold of you

Before you have your first cup of coffee
You're gonna pick up the phone and call me
Won't believe what you say and do
When love gets a hold of you

'Cause it's gonna be written all over your face
All your friends gonna tell you how much you've
changed
Feeling things that you can't deny
Going crazy and you don't know why

You wake up in the middle of the night
I'll be the only thing on your mind
Won't be able to shake it loose
When love gets a hold of you

Before you have your first cup of coffee
You're gonna pick up the phone and call me
Won't believe what you say and do
When love gets a hold of you, gets a hold of you

It's just a matter of time
It's gonna hit you right between the eyes

You're driving home at the end of the day
You find yourself coming by my place
Yeah, you always have a good excuse
When love gets a hold of you

Watch you standing inside my door
Won't remember what you came here for
Can't control what you say and do

When love gets a hold of you

You wake up in the middle of the night

I'll be the only thing on your mind

Yeah, gets a hold of you, gets a hold of you

Gets a hold of you, whoa, gets a hold of you
