I'm not wasting my time on earthly longing  
Let that glory leave me be  
I'm just tasting my life story  
Just a page in history

Chorus:  
Whoever's watching  
Must be watching over me  
Whoever's watching  
Must be watching over me

Well I'm not hurting like I used to  
I got lucky can't you see  
Love came searching  
It could choose you  
Love's the greatest victory

Repeat Chorus

I always look to the sky  
And held my head high  
Had to be what I had to be  
Till the day that I die  
Yes I wonder why  
Somebody's watching  
Watching over me

Repeat Chorus (First two lines)

Well if you know me  
You know I've squandered  
Everything that's dear to me  
Still I stand here in total wonder  
How it's all come back to me

Repeat Chorus

Repeat Chorus (First two lines)
