[Lyrics: F. Penna Correa]

With our force we resist  
Apocalypse is our only revenge  
Nazarene feel my hate  
Feel my sword on your face  
An endless war we're going on  
With the black warriors, Hell's force  
Again we'll crucify you false lord  
With blood in my hands I declare war

For centuries we've lived and died  
In this decaying age  
Now the giants of steel will arise  
With the beasts of this land at our side  
Chaos, our desire was fulfilled  
Blood, all the blood spills  
In this war there's only glory or death  
Victory is the only way at war!  
War! War! At war!

I hear the cry of mankind  
I see men in a lion's den  
I feel all hate in my hands, in my arms  
I give all this hell to the bastards  
I'm in this war for victory - your fall!
