We will, we will be young forever  
We will, we will stay young forever

We are the one's to make it right  
We are the people of our time  
We hold the future in our hands

We have the love to build upon  
Together we can have it all  
With every step we're moving on and on

\*There's enough for everyone  
And more to go around  
You will be forever free  
With all this love, love around

We will, we will be young forever  
We will, we will stay young forever  
We will, we will be young forever  
We will, we will stay young forever  
Forever and ever

We're getting closer her tonight  
There are no feelings left to hide  
I know we're doing what is right

Time to share a love like this  
We've gone beyond the boundaries  
It's all in our hands

\*Repeat

We will, we will be young forever...

And now the time has come  
For you to stand out from the crowd  
Let's begin, just let it in  
Straight into your heart

We will, we will be young forever...
