I'm really glad you came to therapy  
You've recognised your violent tendencies  
And that's the first step to recovery

So sit down, sit down, sit down on the couch  
Show me, show me, show me your account of the  
problem

Cause they say you're a maniac  
but I think you're boring you just jump on the boss'  
back  
They say you're a maniac  
But you're just an addict of the lunge attack

If I were you I'd add a few extra moves  
Don't you know you've got something to prove  
The last thing you want to be accused of is being  
repetitive  
So sit down, sit down, sit down on the couch  
I'll show you, show you, show you what it's all about

Cause they say you're a maniac  
but I think you're boring you just jump on the boss'  
back  
They say you're a maniac  
But you're just an addict of the lunge attack

Where is your rage?  
I thought they let you out the cage  
I wanna see your rage  
They say you're a maniac but what do they know?  
You're just a superhero

Da da da da da da Da da da da da da Da da da da da  
da... (x-men theme tune)
