When I see you, when I see  
Nothing bad could happen to you  
I know it isn't true but then I look at you and keep  
forgetting  
What I know  
When I see you, when I see  
I would never change my mind  
I know I shouldn't promise but I look at you and then  
again  
What I know I forget  
What I know I forget

When I see you, when I see  
This would last eternally  
I know I isn't true but then I look at you and so again  
What I know I forget  
What I know I forget  
What I know I forget

When I see you, when I see  
Oh I would never change my mind  
I know I shouldn't promise but I look at you and so  
again  
What I know I forget  
What I know I forget  
What I know I forget
