Gaze into my mind  
Tell me everything you see  
Raised into a life of suffering and blasphemy  
Step through the crypt and sign away your fucking life  
Gaze into my mind and you all going to die

I cannot remember anything  
I'm locked away suffering with blasphemy  
Cause I've gone insane  
I have aborted several fetus  
It's to get my satisfaction  
I don't need no fucking reason  
Never sorry for my actions  
I am passive but for some reason

I never wanted peace  
I'm eating meat inside the pussy lips  
Of deader and deceased or as I feast upon the corpses  
of the cemetery sinlist  
Arsonist of vag I get like aint nobody's business  
Gaze into my mind on this dark side of suicide  
Genocidal tendencies of killing mankind  
No remorse for the weak through the musick  
You will see that I am the devil  
Put yourself inside my mentality
