Go!

World is shaking,  
Earth is quaking,  
Time is stalling,  
Sky is falling,  
A comets bearing,  
Down upon this planet,  
Ice is melting,  
Sea is swelling now.

I will break the fall,  
When your tumberling down, tumberling down,  
Bombs they fall like rain,  
I will subdue the pain,  
The downfall is over.

You stand up and,  
Rise against the panic,  
You fade out,  
Out across the horizon.

I will break the fall,  
When your tumberling down, tumberling down,  
Bombs they fall like rain,  
I will subdue the pain,  
The downfall is over.

Overcome the downfall,  
Break the mould,  
Release the tension,  
Make this hold (Make this hold)

GO!

I will break the fall,  
When your tumberling down, tumberling down,  
Bombs they fall like rain,  
I will subdue the pain,  
The downfall is over.
