You've got to get out of here,
Run along, run along, face the fear,
Everything's always the same,
This time you can't explain,
Your friends are sick of you for acting so uncool.

I'm always left speechless (Whoa oh)
Moments of regret (Whoa oh)
Sick of feeling old school (Whoa oh)
And I don't wanna fall through, when everyone else is
falling through

Are you aware (are you aware)
That your the only one,
Left here who cares?

I'm always left speechless (Whoa oh)
Moments of regret (Whoa oh)
Sick of feeling old school (Whoa oh)
And I don't wanna fall through, when everyone else is
falling through

I'm always left speechless (Whoa oh)
Moments of regret (Whoa oh)
Sick of feeling old school (Whoa oh)
And I don't wanna fall through, when everyone else is
falling through
But I don't wanna.
