I liked you,
I liked you bad,
You drove me,
You drove me mad,
I can see behind your eyes,
I'm so sick of all these lies.

I saw you,
Kissing him,
And I thought you would,
I hoped you wouldn't
You can see behind my eyes
Sometimes I just wanna slit my wrists and die

What happened, To you and me? Can you please, Guarantee? What went wrong? I can't, hold on.

You don't,
Even regret it,
Why won't,
I just forget about it?
You caused me so much pain,
I'm sick to death,
Of this game you play.

What happened, To you and me? Can you please, Guarantee? What went wrong? I can't, hold on.
