People say I'm a dirty heart breaker  
Some people say I'm a cheap date maker  
I must admit some call me a love shaker  
I lick a smile from ear-to-ear  
But the fun is what you fear  
So let me tighten the straps and turn the wheel  
So I can make this more than clear with some...

Sugar, leather, & the nail  
Sugar, leather, & the nail

I'll kiss your wrists with pieces of leather  
Nail them high with a velvet hammer  
You softly speak, you start to enjoy this get-together  
I make you sticky with a splash of my honey  
The honey that I got don't take money  
So let me tighten the straps and turn the wheel  
So I can make this more than clear with some...

Heat rising like the haze of the sun  
We get closer say that I'm the one  
The sugar on you like a snake has scales  
You ask for my phone number screamin' sugar,  
leather, & the nail!

I lick a smile from ear-to-ear  
But the fun is what you fear  
So let me tighten the straps and turn the wheel  
So I can make this more clear with some...
