You believe what you want to  
But you're heading for a big disaster  
Losing it, like you always do  
Keep this up, I'll have to put you under

My irregular.. Heartbeat  
Keepin me alive  
But just barely  
Just cause I wander, doesnt't mean Im lost  
Come with me, we'll find somewhere to be free

We can breathe the same air  
Take our time to get there  
So do you want to disappear with me?  
We won't look back  
So do you want to disappear with me?  
Leave it all behind

Disappear  
Disappear  
With me  
Disappear  
Disappear  
With me  
Don't you want to be free?

Are you simple?  
Are you poison?  
Either way it ends in disappointment.  
Is it worth it?  
To fear me?  
Make me into a monster  
Stop sleeping  
Start Screaming  
Avoid the sunlight  
Come with me  
I want to, to show you  
The desert at night

We can breathe the same air  
Take our time to get there

So do you want to disappear with me?  
We won't look back  
So do you want to disappear with me?  
Leave it all behind

Disappear  
Disappear  
With me  
Disappear  
Disappear  
With me  
Don't you want to be free?

It was raining  
But we still had the windows down  
I wanted somethin crazy..  
But you wouldn't do that

We can breathe the same air  
Take our time to get there  
So do you want to disappear with me?  
We won't look back  
So do you want to disappear with me  
Leave it all behind

Disappear  
Disappear  
With me  
Disappear  
Disappear  
..with me

Don't you want to be free?
