We stand alone
With your metal
And our stones
We're hybrid
Divided
Hide the wind and earth
And fire forever
And now we hone
Our fingers to the bone
We're hybrid one sided
What can we do...
Live our lives like you?
We're hybrid misguided
Hide the wind and earth
And fire for ever
It's over
Chenko tenka io
This compromise
This village I despise
We're hybrid
Collided
Hide the wind and earth
And fire forever
It's over
Chenko tenka io
