This one's goin out to you
I hope you listen to it through
Appreciate my words

Unbelievable at times
You amaze me with your lines
So now we're through

All i wanted was an answer
Given to me straight and true
All i got was broken english and you

In these paragraphs to you
In these documents of truth
Laid bare and exposed

The way you ruined you for you
You take another then refuse
Your face, your own

What is love
Is it really worth the mess you'll find
It's just inside
Once in love - i'm never going back
It's suicide with you
