

Red Animal War "Mouse"

Visit "[Mouse](#)" on MotoLyrics.com

And there's just so many things you'd like to do you'd
love to dream people are so satisfied with hate today
and now you know for sure your heart is on be frank be
honest i know how hard you've tried let's make a pact
again tonight and there's a shift in the economy in
argentina that air i'm told i must breathe so please
bring me down farther south where it's hot hey
longview i am the mouse this much is true take in the
poison each time new and i had it all to stand ten feet
tall to take in the poison don't take it back there was a
time in the hall where we all lost our heads if fear is the
only thing that you bring change that to be love instead
i am the mouse this much is true i'm taking the poison
a gift from you and i had it all to stand ten feet tall to
take in the poison to take it straight down where you
can crown yourself as king i bide myself time by myself
hit me and there's a million things things we'd like to
do we'd like to dream people are so cold to find people
are so satisfied with hate
