Work all day, sleep all night
When do we come out to fight?
Voodoo freak, tattoo king
You'll be safe beneath our wing
Midnight sun, midday moon
Showing somewhere near you soon
This whole world
Flashing by
My whole life
Passing by

Go internationale
We're on our way to Heaven

Black or white, rich or poor
You'll be welcome at my door
Son of God, God of Sun
They will fail you every one
Rising sea, falling sky
It's getting hard to keep me dry

This whole world
Flashing by
My whole life
Passing by

Go internationale
We're on our way to Heaven

This whole world
Run by fools
My whole life
Flashing by
