Kids are so simple,  
they have no problems  
they don't have girlfriends who ignore them and dump  
them  
so why are we still here?  
we don't want to waste time  
we don't want to wait  
we want the spotlight or the limelight

so where do we want to go  
where do we want to go  
the west coast  
the west coast  
where do we want to go  
where do we want to go  
we want the west coast  
where do we want to go  
where do we want to go  
the west coast  
the west coast  
where do we want to go  
where do we want to go  
we want the west coast  
we want the west coast
