[C. Somapala]

Her silky hair  
Why does she hide in nature's sunlight  
Her angry stare  
A phantom figure of the night

The eyes of fire  
Burns me insane  
And drags me to the ground  
I get higher  
When she entertains  
A sequined veil around

Her lewd motions  
Captured my soul, full of lust  
Why can't you see  
An erection with angel dust

The eyes of fire  
Burns me insane  
And drags me to the ground

Her heavenly rhyme  
I'm tangled in a dream of lost souls

The eyes of fire  
Burns me insane  
And drags me to the ground  
I get higher  
When she entertains  
A sequined veil around
