Broken down and I can't sleep  
Torn apart for all to see  
Trying hard but feeling weak  
From the suspension  
Came along and you saved me  
Held me high and helped me see  
Calmed by your serenity  
So I listen

She said  
Maybe we'll escape and go into the water  
Travel far away from fear and disaster  
Take a chance and run now  
I still can't believe could you be the one that rescues  
me

I'm alive for the first time  
Let's see can you rescue me  
I've got a feeling like a third degree  
I'm burning baby burning  
Gonna lose my mind  
And I feel alive for the first time

I'm alive for the first time  
Let's see is it meant to be  
I'm locked up can you find the key  
I'm burning baby burning  
Gonna lose my mind  
And I feel alive for the first time

Burn't by misconceptions  
Torn by lies and misbelief  
Holding strong as I seek intervention  
On a path to redemption  
Slowly dying underneath  
She stands right beside of me  
Never questions

She said  
Maybe we'll escape and go into the water  
Travel far away from fear and disaster  
Take a chance and run now

I still can't believe could you be the one that rescues  
me

I'm alive for the first time  
Let's see can you rescue me  
I've got a feeling like a third degree  
I'm burning baby burning  
Gonna lose my mind  
And I feel alive for the first time

I'm alive for the first time  
Let's see can you rescue me  
I've got a feeling like a third degree  
I'm burning baby burning  
Gonna lose my mind  
And I feel alive for the first time

I'm alive for the first time  
Let's see is it meant to be  
I'm locked up can you find the key  
I'm burning baby burning  
Gonna lose my mind  
And I feel alive for the first time

I'm alive for the first time  
Let's see can you rescue me  
I've got a feeling like a third degree  
I'm burning baby burning  
Gonna lose my mind  
And I feel alive for the first time

I'm alive for the first time  
Let's see is it meant to be  
I'm locked up can you find the key  
I'm burning baby burning  
Gonna lose my mind  
And I feel alive for the first time
