The common man in disgrace  
Raise his hand and pray to god

On a day we've lost our justice  
He will speak for everyone - in the world

Once I saw how an angel died  
It scared me to the bone  
Alone on his way to hell  
Direction: the wrong way?

It seems to me this is the revenge  
For our sins over two thousand years

A stripped down truth  
A naked fault  
Where's a new day?

We're livin' in a cold place  
With the world forgotten sons  
The common man in disgrace  
Speaks a prayer for everyone - to keep us alive

In love we go, but in chains we flee  
The punch line of that game  
And anyone who is free of sin  
Might go for the first stone

It seems to me like a soul demise  
The fate of the so called dead man

The search for final answers,  
Could it be they're finally found?
