Take me to the land of frozen tunes,
Hockey teams and violins and mysterious dreams,
Take me to the land of cosmonauts where man are
taking vodka shots,
And woman are free.

Siberia land of cottage cheese and happy smiles,
Siberia land of broken bones and solid skies.

With you I would be happy living there,
Raising cows and children, watching no TV,
Show me what our life suppose to be,
Working for collective farms getting jeans for free.

Siberia land of cottage cheese and solid skies,
Siberia land of broken bones and happy smiles.

Siberia land of cottage cheese and happy smiles,
Siberia land of broken bones and solid skies.

Siberia land of cottage cheese and giant trees,
Siberia land of rolling stones, free love and peace.
