(Johnny Mullins)

Oh, mama I'm excited, I'm almost out of breath
What I saw the light that made me run myself to death
I was on the mountain side when I looked down below
And glory be I thought I'd better come and let you
know.

That we got company comin' we got company comin'
We got company comin' down the road
They're down the road about a mile they'll be here in a
little while
There's company comin' down the road.

Well, Granny change your apron and Willie shine your
shoes
Sally put your new dress on we got no time to lose
I'll go find a welcome mat and spread it out with cheer
I don't know yet just who they are can't make 'em out
from here.

But we got company comin' we got company comin'
We got company comin' down the road
They're comin' up the mountain side Susie don't you
run and hide
There's company comin' down the road.

We'll run out to the henhouse and wring a neck or two
We'll have chicken and dumplings some yellow gravy
too
Grandpa get your fiddle down they might want a tune
Everybody hurry cause them folks will be here soon.

Oh, we got company comin' we got company comin'
We got company comin' down the road
Let them all shout out aloud they'll be here in a little
while
There's company comin' down the road...
