(Fred Rose)

Your love is colder than a foggy river  
Flowing o'er a heart of stone  
You left me stranded on this foggy river  
Drifting helpless and alone.

Can't escape this broken heart of mine  
There's no freedom anymore  
Oh, heaven help me on this foggy river  
Help me find the distant shore.

--- Instrumental ---

Always knew some day you'd let me down  
I've got troubles on my mind  
I guess I'm doomed to sail this foggy river  
Till I leave your love behind...
