(Jim Anglin)

Happiness means you dear our life's complete
No river's too wide no hill's too steep
I'll face life smiling and no room for the blues
'Cause we both know dear happiness means you.

Everyone will know dear I found love at last
No time for old memories or tears from the past
Oh, what a difference true love can made
A heart that's lonely it's sure to break.

Happiness means you dear our life's complete
No river's too wide no hill's too steep
I'll face life smiling and no room for the blues
'Cause we both know dear happiness means you.

--- Instrumental ---

I never found happiness as a rolling stone
Your love changed my world when you came alone
Our love is the same dear it works both ways
If my heart's got lighter it will fly away.

Happiness means you dear our life's complete
No river's too wide no hill's too steep
I'll face life smiling and no room for the blues
'Cause we both know dear happiness means you.

Yes, we both know dear happiness means you...
