(Jim Anglin)

Loved and wanted everyone wants to be
Darling I'm so happy you love and want me
Without your love my dear what would I do
Loved and wanted especially by you.

Some man crave welth while other seak fame
But without your love dear they don't mean a thing
I'd rather have true love and live in a shack
Then to have a rich husband slippin' around behind my
back.

Loved and wanted everyone wants to be
Darling I'm so happy you love and want me
Without your love my dear what would I do
Loved and wanted especially by you.

--- Instrumental ---

Everybody needs a love it's part of nature's plan
A man for every woman a woman for every man
Some never find the right one sad but it's true
I found the only one when I met you.

Loved and wanted everyone wants to be
Darling I'm so happy you love and want me
Without your love my dear what would I do
Loved and wanted especially by you...
