What remains?  
Nothing but questions and glistening eyes  
All I'd ask  
All you'd say  
I'm looking for love but your love's gone away

So alone  
Overwhelmed  
Playing out moments I failed  
Oh your eyes and your laugh  
Shelving the past takes control I don't have

To end here  
Look around  
It's your world I hide in  
And I need to be found

I'll take a step  
Take a breath  
I'll take a chance, I'll begin  
To rebuild, to receive  
We're still the same, but we're wandering free

And she will give  
What we'll have will offset the dreams that I've had  
And you will scream  
You will mourn  
But she has your eyes and your smile and your form

To begin here  
Look around  
It's your world I hide in  
And I need to be found  
Loss will always stay with me  
It's your world I'm locked in  
And I need to be freed

Been here so long  
Lord, make me strong  
I fell into  
The depths of you

Oh, to resolve here  
Look around  
It's your world I hide in  
And I need to be found  
Loss will always stay with me  
It's your world I'm locked in  
I can never break free
